

The TALX for Employment Verification, which was terminated 10 Feb 2011, has been reinstated effective 6 Sep 2011. National Guard Technicians can resume using this process for employment verification. Keep in mind that the data in TALX will NOT include the employment periods from 10 Feb 2011 to 6 Sep 2011. However, all employment periods are in the Defense Civilian Personnel Data System (DCPDS) through MyBiz. You may choose either TALX or DCPDS for employment verification. TALX can be reached at 1-800-367-5690 or visit www.TheWorkNumber.com to verify employment.
