Serbian delegation tours Ohio installations

WHO: A delegation from the Serbian Air Force will visit the Ohio National Guard Dec. 4 – 8, 2006. This visit is part of the State Partnership Program between the Ohio National Guard and the Republic of Serbia.

WHAT: The delegation will meet with units of the Ohio Air National Guard to become familiar with the organization and function of the United States Air Force at the installation level.

The members will also visit Wright Patterson Air Force Base to gain an understanding of the difference between an active duty and National Guard installations. The delegation will also discuss future opportunities to promote the partnership that was established earlier this year.

The State Partnership Program, a U.S. European Command initiative, in conjunction with the National Guard Bureau, links National Guard states with partner countries to foster mutual interests and long-term relationships across all levels of society.
