OHIO NATIONAL GUARD

2016-2021 STRATEGIC PLAN

The Ohio National Guard has embarked on a new journey to meet the demands of an ever-changing world. The War on Terrorism will not subside in the near future, neither will our duty to protect the citizens of Ohio. If anything, our missions at home will expand as we work with our partners to strengthen our communities through missions such as fighting the war on drug abuse, providing clean drinking water, or helping get our neighbors back on their feet after a devastating flood or tornado.

Technology, geopolitical concerns, and the way we fight wars have changed over the past 15 years and the Ohio National Guard must change to meet these challenges. Consequently, we have examined and updated our Strategic Plan. Our strategic plan emphasizes those areas in which we must excel in order to assure the future success of our Federal, State, and Community missions. To that end, we looked strategically at the challenges of tomorrow, without being overly influenced or constrained by the problems of today, and identified a new Mission, Vision, Strategic Themes, and Priorities. At the same time, we revalidated the Ohio National Guard's values to ensure all of them align with our core being.

The new vision statement begins with five simple words — “To be the first choice!” This statement may be short on words, but it carries with it a vast amount of responsibility. The strategic plan itself will go into detail on what this statement means for you and the Ohio National Guard. However, in order for the organization to be the first choice, every individual needs to be able to reach their maximum potential.

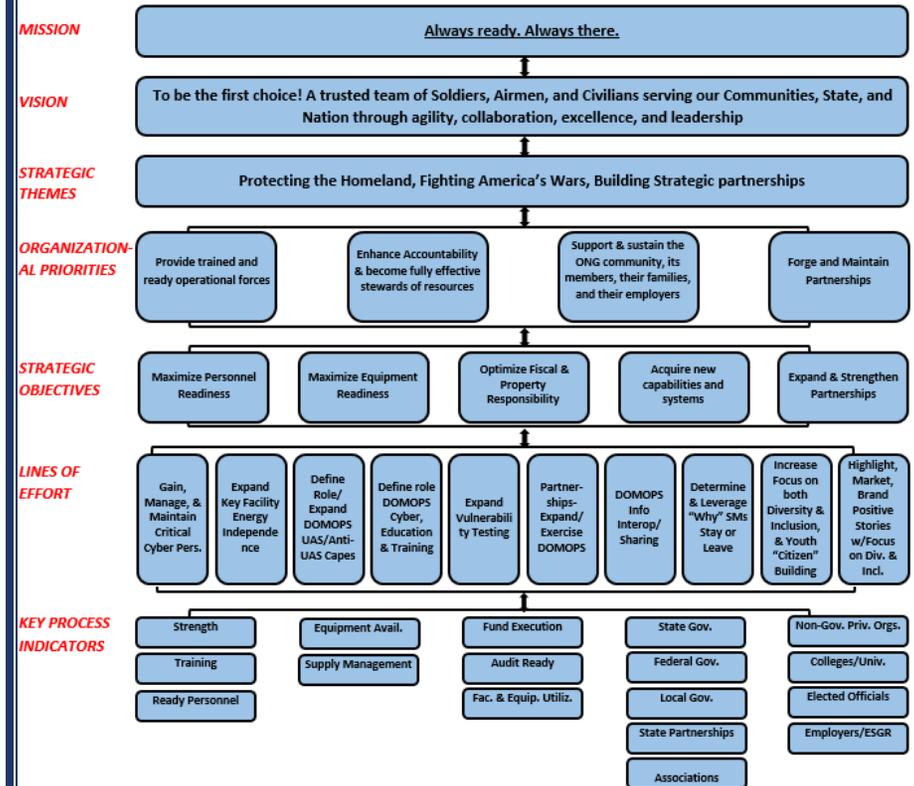

As individuals, and collectively, we have pledged to serve our Nation, State, and local communities. Achieving our mission tasks makes us better neighbors, creates stronger communities, and supports our Strategic Objectives. Our emphasis on readiness for all three missions is reflected in our new mission statement: “Always ready, Always there!”

OUR STRATEGIC PLANNING PROCESS

Our 2016-2021 Strategic Planning Process started in July 2015. Soldiers and Airmen utilized scenario-based strategic planning to identify a core of robust strategic imperatives that will be important to our organization, regardless of what the future holds. The team looked strategically at the challenges of tomorrow and identified the new Mission, Vision, Strategic Themes, Priorities, and revalidated the Organizational Values for the Ohio National Guard. Subsequent groups met in January-March 2016 to explore those Organizational Priorities further. They identified the Strategic Objectives that must be met to achieve the Organizational Priorities, along with the Key Process Indicators that define our success in accomplishing our primary missions.

In 2016, 2017, and again in 2018, members of the ONG identified and prioritized initiatives to ensure the success of our five-year Organizational Objectives along with the measures and targets that provide visibility to our successes and shortcomings.
